

We'd Love to Hear From You!

Your experience helps other families make confident decisions.

Date Tuesday, August 5, 2025

Name Stan Atteberry

What was going on in your life when you heard from us?

I owned a second home and was trying to decide if I should sell it as-is or remodel and sell it. I discussed the options with Jeremy and decided to sell as-is.

How did the process go, from your first call, to now at closing?

Jeremy and his team took care of the sale. All I had to do was sign some documents and the house sold fairly quickly.

What does your next chapter in life look like?

I purchased a new home for my family and now have another second home/rental. I will definitely be contacting Jeremy and his team again when I'm ready to sell one of my properties.

Is there anything we did to help make that transition to your next chapter better?

Jeremy was able to guarantee me a sale amount, while trying to get me more. That took a lot of stress out of the process.

On a scale of 1–10, how likely are you to recommend us to a friend or family member? 10 / 10

Was selling "as-is" really as simple as we explained? What surprised you about the process?

I wasn't sure what was going to happen. There was a "show day" for investors that I didn't expect but it wasn't an issue. I was in the process of moving a family member out of the house and felt I needed to be at the during the showing. Again, no big deal.

What would you tell someone who is nervous about selling their house to us?

Don't worry! Keep in close contact and question anything you don't understand.

How would you rate the overall process? ★★★★★
